

Hello, I live in the town of Blackstone, Ma. located on the Rhode Island border, 12 miles north of Providence, R.I. We once had localism in our town until the Neilsen's and you decided we should be in the Boston/Manchester N.H. market. We lost our Rhode Island tv stations and are told we can't have them back. This has been a big complaint with most of our citizens of our town. But know one listens!!! I have sent complaints, and other people have too and not even a reply came back. Thanks to you guys we get all the local news from N.H. and Boston. The Neilsen's have us in the wrong market. Check it out, check out our towns location on a map. We are the ones paying the cable bill. Can't we at least see our local news and advertisers that are located near us? We are a small town, We depend on the stores and services located in the city of Woonsocket R.I. located next door to us. I'm sure I'm not going to drive to Derry, N.H. 100 miles away to shop for groceries. It would really surprise me if I recieved a reply from you. Thankyou for your time. John...
